

## ROBOTIC-ASSISTED ASSEMBLY OF WINDOW FITTINGS

### HARDWARE ASSEMBLY

#### THE ADVANTAGES

- > 6-axes industry robot for automatic placing of fittings
- > Automatic closing part shelving and feeding
- > Gripper system for automatic setting of fittings
- > Electric screw driver unit for tightening of fittings
- > Fixing unity at the support table
- > Further applications possible such as:  
Automatic glass setting automat  
Automatic gluing

#### TECHNICAL DATA

|                        |              |
|------------------------|--------------|
| Profile depth          | min. 30 mm   |
| Profile depth          | max. 90 mm   |
| Profile sight line     | min. 60 mm   |
| Profile sight line     | min. 130 mm  |
| Clear inside dimension | min. 300 mm  |
| Profil dimension       | max. 3000 mm |
